Experience

Apple | Engineering Technology Camp

July 2018 - Present | Cupertino, CA

Worked with 25 juniors and seniors in high school to help educate, motivate and inspire young individuals to interact with and advance the technological field as a counselor with Ideas United.

DX Lab | Lead UX/UI Designer

March 2018 - Present | Remote

DX Lab is a university run program specializing in augmented reality, IoT, and research & development. Worked as a designer crafting their own brand's web experience as well as agency projects.

Fidelity Investments | UX Design Intern

May 2017 - August 2017 | Boston, MA

Worked on an agile design team, alongside researchers and developers, to create products and services from concept design and prototypes to final deliverables.

- Designed, prototyped, tested and shipped Electronic Funds Transfer (EFT) web widget
- Prototyped high fidelity budgeting app targeting millennials
- Conducted usability testing for web and mobile platforms
- Created rapid prototype for a functional webpage to help rate and categorize potential new employees

Ation Student Agency | Project Manager

August 2017 - May 2018 | Storrs, CT

Led team of six students working with ISA (International Studies Association) to improve the digital experience of customers for ISA's upcoming conference in San Francisco.

- Conducted interviews with exhibitors, advertisers and sponsors for 2017 annual conference
- Created a redesign for ISA's future website
- Designed promotional print booklet
- Oversaw live action videos - interviews and production

Center for Career Development | Design Intern

January 2017- May 2018 | Storrs, CT

Created promotional animated informational videos, posters and web content for UConn. Photographed and edited professional photos for students.
